

STYLOR - Free Sample

STYLOR - Styles, Labels & Badges is a pack of different premade Illustrator Graphic Styles and Labels & Badges that can be used for branding, typography, prints, packaging or any advertising project. All of them are vector based, so is very easy to change their size without losing quality. All labels and badges are editable and the fonts used are free.

USER GUIDE

Fonts:

If you want to use the fonts used in the presentations you should install the fonts from below:

ChunkFiveRoman - <http://www.abstractfonts.com/font/15737>

BodonixXT - <http://www.dafont.com/bodoni-xt.font>

Avenir - System font

How to install fonts into your system:

Apple users:

1. Open a Finder window.
2. Select "Go" from the menu, press "alt" key to activate the "Library" option and select it.
3. A new window should appear on your screen. Open the "Fonts" folder
4. For installing the fonts you should just drag and drop the fonts in this folder.

Windows users:

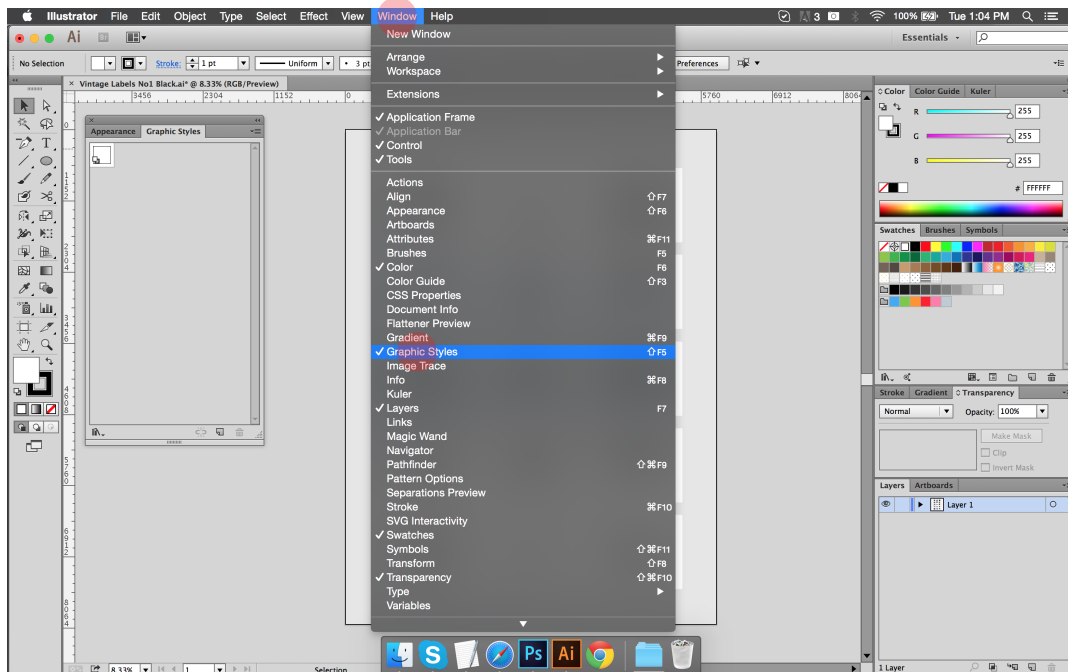

1. Go to Control Panel.
2. Open the "Fonts" folder.
3. For installing the fonts you should just drag and drop the fonts in this folder.

How to apply the graphic styles:

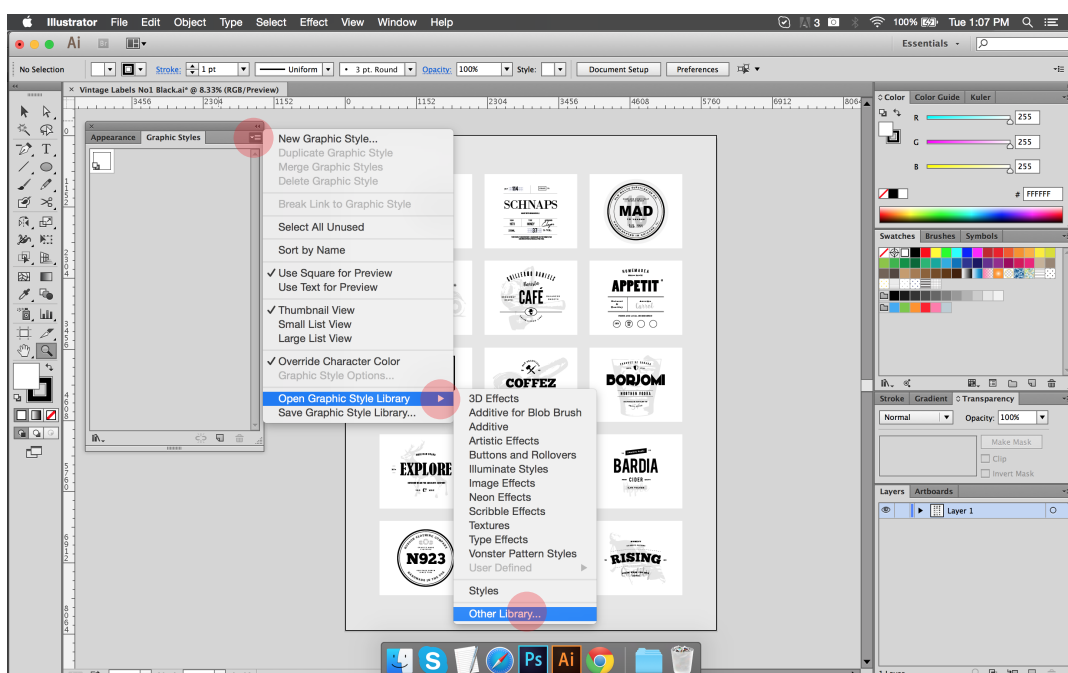

Step 1: Open the Vintage Labels No1 Black.ai document.

Step 2: Open the Graphic Styles window.

Check the Graphic Style from the Window menu. A new window should appear on your screen. If the window is checked you should find it on your screen.

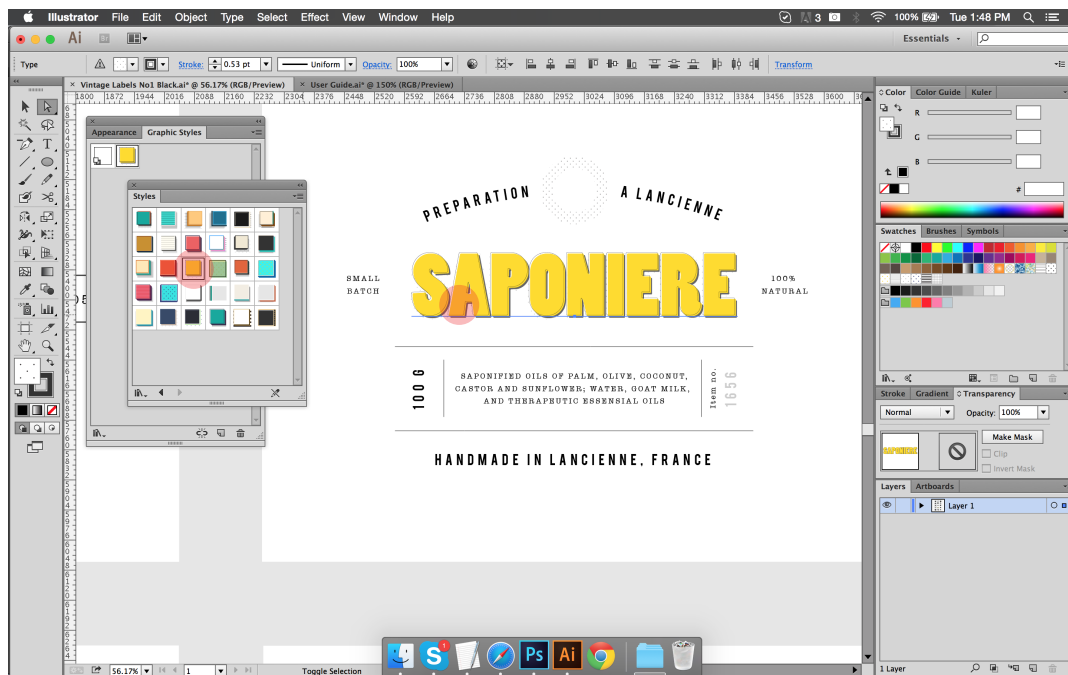

Step 3: Click on the right arrow from the window and go to “Open Graphic Style Library” and select “Other Library”

Step 4: Go to the folder you downloaded and select “30 Illustrator Styles.ai”.

A new window with all the styles will appear on your screen.

Step 5: For adding a style to your text first you need to select the text you want to apply it to and from the Styles window select a desired style.

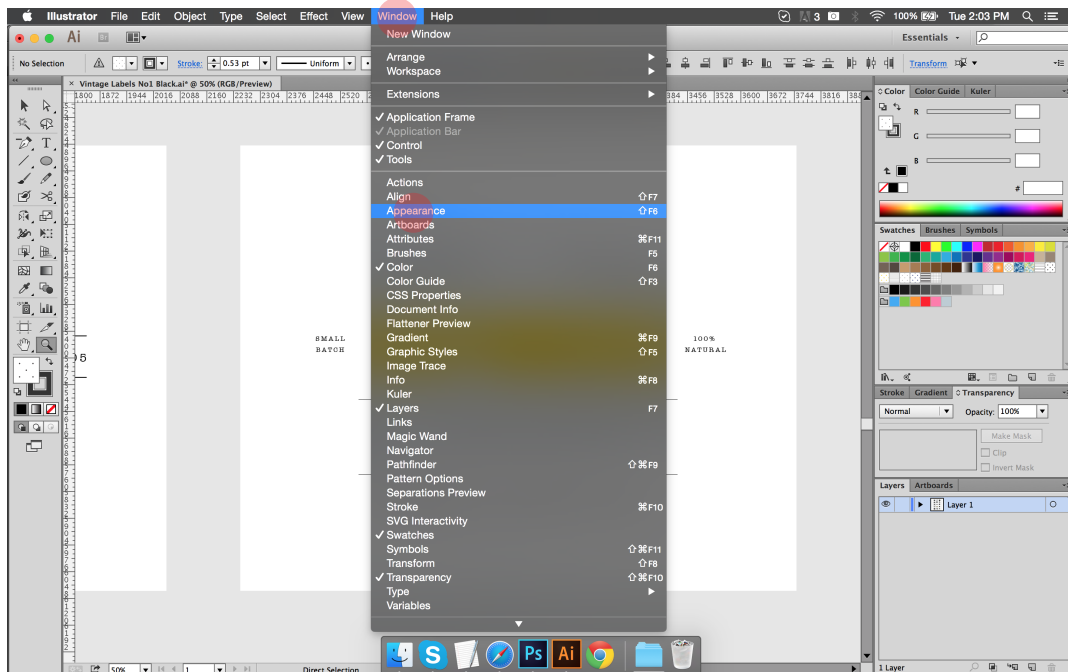

Step 5: If the style doesn't fit your needs you can easily select another style by clicking on it.

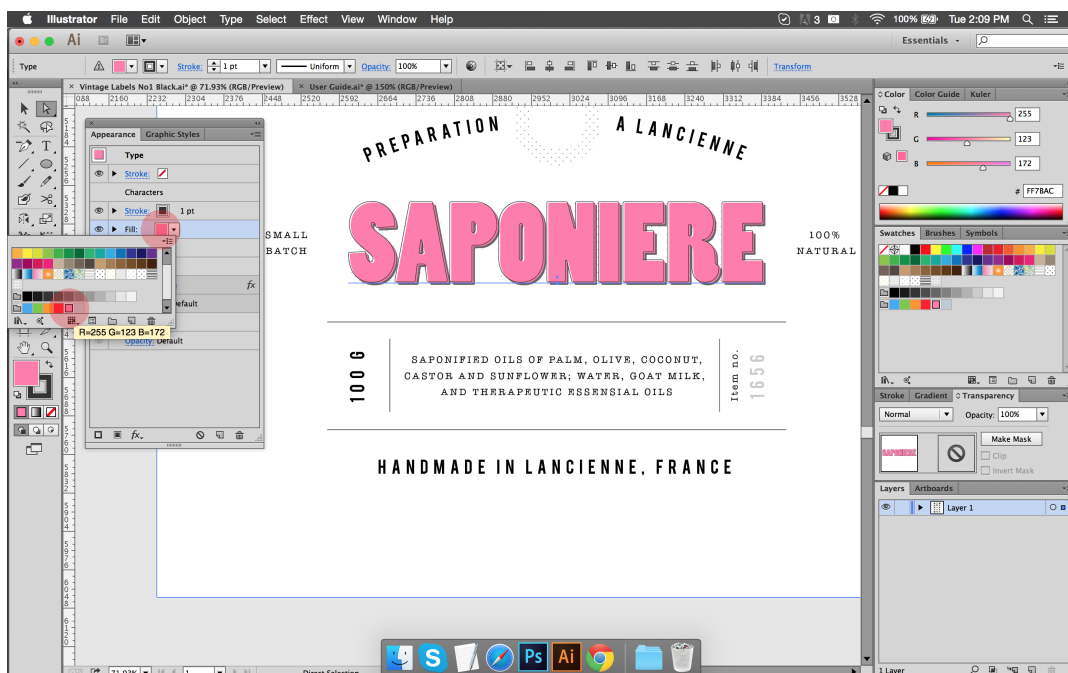

Advanced customization:

Step 1: Open the Appearance window.

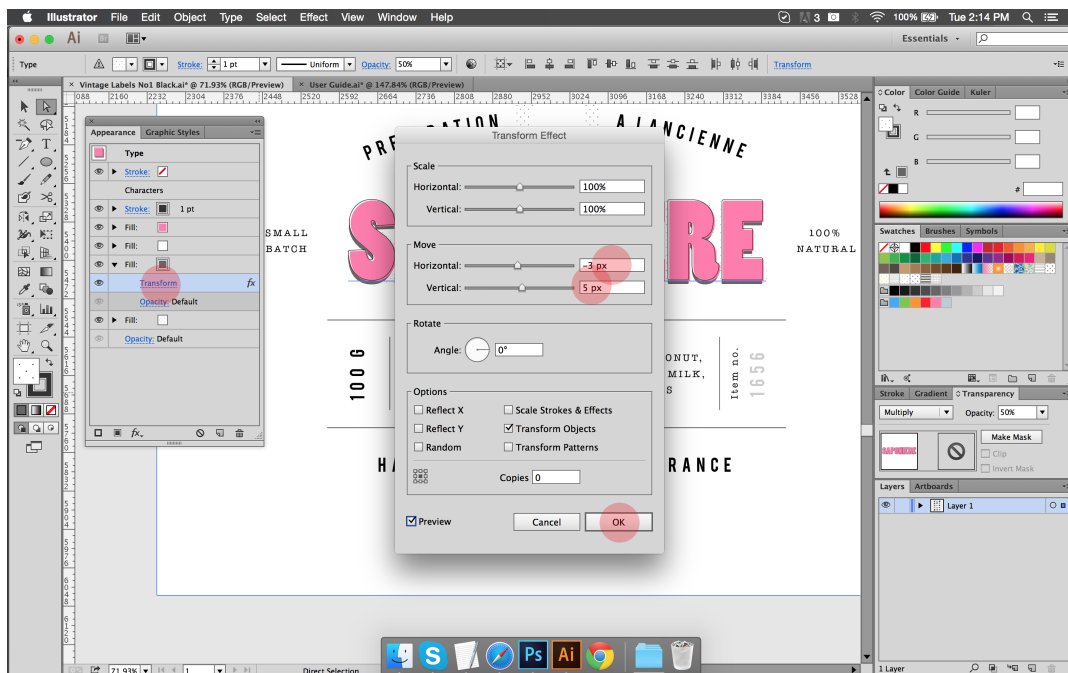

If you haven't opened the window already you need to go to check "Appearance" from the Window menu.

Step 2: From the Appearance window you can select the layer you want and change the colors

Or, if you can change the values of each layer.
